

Renewable Energy Certificate Assignment Form

Please read both pages of this form before completing it and signing the declaration. Write in BLOCK LETTERS.

- 1. PAYMENT TYPE** I have received a \$ _____ Point of Sale Discount. Please pay the Builder/Agent.
 Please pay me, the owner of the installation.

2. SYSTEM OWNER DETAILS

Business Name* _____ * Only required if the system is owned by a registered business.

First Name _____ Surname _____

Postal Address _____
SUBURB/TOWN STATE POSTCODE

Phone Numbers HOME _____ WORK _____ MOBILE _____

Fax Numbers HOME _____ WORK _____

Email _____

3. INSTALLATION DETAILS

Installation Address _____
LOT/UNIT NUMBER STREET NUMBER STREET NAME STREET TYPE SUBURB/TOWN STATE POSTCODE

System Brand Rheem Vulcan Everhot Date of Installation ____/____/____

System Model Number _____

Tank Details Model number _____ Serial number _____ Size (litres) _____

Collector Details Number of collectors _____ Collector type NPT200 HBT200 S200 T200 Other _____
Serial Number (Collector 1) Serial Number (Collector 2) Serial Number (Collector 3) Serial Number (Collector 4)

Boost Type Electric (Continuous, or day and night rate) Electric (night rate only) Gas In-tank Gas Inline
 If boosted by a gas inline booster : Model Number _____ Serial Number _____

Installation Type New building Replace electric New installation on existing building (not replacing existing unit)
 Replace gas Replace solar or heat pump Other Refer to point 2 of Terms and Conditions.

Does your system have a volume greater than 700L? No Yes *If yes, then two original Commonwealth Statutory Declarations must be supplied.*
 I have attached an original Commonwealth Statutory Declaration which confirms this system is appropriately sized, and
 I have attached an original Commonwealth Statutory Declaration, signed by myself or an authorised Business representative (where the "Owner" is a registered business), declaring the system will remain installed in its original configuration and location for the life of the system.
 These declarations MUST BE provided otherwise RECs cannot be created for this installation. Examples of declarations can be found at www.orer.gov.au/forms/agent-stat-decs/html

4. INSTALLER DETAILS

Business Name _____ Licence Number _____

First Name _____ Surname _____

Postal Address _____
SUBURB/TOWN STATE POSTCODE

Email _____

Contact Numbers PHONE _____ MOBILE _____ FAX NUMBER _____

5. PAYMENT DETAILS

Email _____
 (where notification of payment will be sent)

Account Name _____

BSB _____ Account Number _____

Important: Ensure you enter the correct BSB & Account Number.
 They can be found on your bank statement. It IS NOT the 16 digit number on your credit/debit card. Rheem will only use your bank details to pay the financial benefit of this RECs Assignment.

6. DECLARATION BY SYSTEM OWNER

- I have read both pages of this form and I'm fully aware as to the implications of this assignment.
- I am aware and acknowledge that penalties can be applied for providing misleading information in this form under the Renewable Energy (Electricity) Act 2000.
- I am the legal owner of this system at the time of its installation and confirm the installation of the system is complete (refer to Point 1 of Terms and Conditions).
- I have not previously created RECs or assigned my right to create RECs to another registered Agent for this installation.
- I confirm this form has been completed and I have checked the information and details on the form and, to the best of my knowledge, I deem them to be correct.
- I agree to assign my right to create RECs to Rheem Australia Pty Ltd. I understand that the installation of this system is eligible for _____ RECS.
- I authorise Rheem Australia Pty Ltd to amend any errors on this form to clarify eligibility requirements under the Renewable Energy (Electricity) Act 2000.

IMPORTANT: DO NOT sign or date this form before the installation of the system is complete or before the form has been filled out in full, as this may lead to an offence.
 Penalties may be applied for an offence under the Renewable Energy (Electricity) Act 2000.

Signed by the Owner of the Installation: _____ **Witnessed by the Installer/Agent:** _____

Signature: _____ Signature: _____
 Name: _____ Name: _____
 Date: _____ Date: _____

Renewable Energy Certificate Assignment Form

What is a Renewable Energy Certificate Assignment?

The Owner of an eligible solar water heater or heat pump installed in Australia may qualify to create, or assign their right to create, Renewable Energy Certificates (RECs). This can only be done **AFTER** the system has been installed.

You can create RECs directly, by registering with the Office of the Renewable Energy Regulator (ORER), or by assigning your right to create RECs to a registered Agent such as Rheem Australia Pty Ltd ABN 21 098 823 511 (hereafter referred to as Rheem). You are not obliged to assign your right to create RECs to Rheem. If you choose to do so, you will receive the financial benefit either by Point of Sale Discount or after the RECs have been created.

Rheem will pay the rate advertised on our website www.rheemsolarsavers.com.au on the day that we receive the forms. The value of a REC may vary from day to day depending on market supply and demand.

Our website www.rheemsolarsavers.com.au can help you find out how many RECs your system is eligible for, our current RECs price and where to find information like serial numbers. You can also call us on 132 552.

Note: A solar water heater installed as a solar preheater to an existing water heater, and without the electric booster element connected to an electrical circuit is not eligible for RECs to be created for its installation.

To find out more information about RECs see the government website at www.orer.gov.au.

Important: Under the Renewable Energy (Electricity) Act 2000, penalties can be applied for providing misleading information on this form.

Terms and Conditions

- It is the Owner of the system **at the time of its installation** who has the right, under the Act, to create or assign their right to create RECs. No other person or entity can legally create, or assign the right to create, RECS unless contractually agreed. The time at which a water heater is taken to have been installed is the date when it is first able to produce and deliver hot water heated by solar energy. This means that:
 - All components that make up the water heater are installed and connected, and
 - The cold water plumbing from a water supply is installed and connected, and
 - The hot water plumbing from the water heater is installed and connected to the points of use or application, and
 - The water heater is full of water, has been fully commissioned and is in use or ready for use.
- If more than one system has been installed, assignments for each system must be on separate forms. Please include a detailed description to allow us to distinguish between them. Eg Solar Water Heater West. Attach a document that clearly shows or describes the locations of the system.
- Rheem will not pay compensation for any variance and reserves the right to change the price offered for RECs without notification.
- Information on this form will be given to the ORER who may use it for auditing purposes.
- The installation address must be detailed enough to allow the ORER to conduct a site visit, if required.
- This form and required attachment(s), with all required information complete and correct, must be received by the Rheem RECs Administration within 11 months of the installation date, in order to allow the creation of RECs by Rheem, otherwise a financial benefit may not be paid.

Send Form and Attachments to Rheem:

Post:
Rheem Australia Pty Ltd
RECS Administration
PO Box 6
Rydalmere, NSW, 2116

Email: *
recs@rheem.com.au

Fax: *
(02) 9684 9245

* Email and Fax Services are not available for systems with a capacity greater than 700L because Statutory Declarations must be ORIGINALS. Please send these assignments by post.

Attachment Checklist

Incomplete applications will be returned without processing. Please ensure you attach:

- Proof of Purchase** (this is the invoice from the installer/agent to the customer). This must clearly show any point of sale discounts (if given).
- An Invoice for the RECS financial benefit** (only if the payment is to be made to a business). The invoice should be made out to Rheem Australia Pty Ltd and must show your ABN. If you are charging GST this should be a tax invoice.
- Two ORIGINAL Commonwealth Statutory Declarations** (only if the system capacity is more than 700L). Copies, including faxes and emails, cannot be accepted. For further information on the requirements of the Statutory Declarations and their content, please refer to the ORER website (www.orer.gov.au).
- A document that clearly shows the location of the systems** (only if more than 1 system has been installed on the site)
